Shenward
Chartered Accountants & Business Advisors

KashFlow is easy-to-use software that's been built for small businesses. Founded and still based in the UK, KashFlow understand exactly what UK businesses face from their accounts and legal obligations. And to help, they've built a software solution that makes it all easy.

We know that you want to spend your time on your business, not struggling with complicated software trying to understand how it works. So KashFlow cuts out the confusing jargon and complicated processes, giving you a simple and streamlined approach to accounts.

From invoicing and cash flow management to automatic VAT return generation and filing, it's all at your fingertips and manageable in a few clicks. As well as taking care of your accounting needs, KashFlow enables you to easily create professional invoices using your logo and even add cashless payments to enable you to get paid instantly.

> *KashFlow is focused on what a small business needs and it is really easy to use. The people are passionate and helpful, and it keeps getting better.*
>
> **Tom Stewart, Carrarini Wellness Ltd**

> *KashFlow has helped my business by giving me time back. The interface is so easy to use and I can enter information anywhere so it means that I'm no longer spending hours updating records at the end of the day.*
>
> **Christopher Davis, Right Track Training**

> *KashFlow is user-friendly software which makes keeping accounts easy for untrained financial managers. The software enables me to examine the status of my company accounts in several different ways. I have recommended it to others and will continue to do so.*
